Portfolio Website

PROFESSIONAL SUMMARY

Experienced MEP Team Leader with over 4 years of hands-on experience in electrical installation, MEP systems, and interior fit-out projects. Skilled in electrical, plumbing, mechanical, and interior renovation works for residential, commercial, and hospitality projects, including coffee shops, restaurants, offices, borey houses, condominiums, and retail spaces. Experienced in leading installation teams, coordinating site activities, ensuring quality and safety standards, and reporting project progress to supervisors. Seeking opportunities as an Assistant MEP Engineer or MEP Team Leader.

EDUCATION

Bachelor's Degree in Electrical Engineering

Completed from 2018 to 2022.

UPreah Kossamak Polytechnic Institute (PPI)

- Focus Areas: Electrical Power Systems, MEP Engineering, Electrical Installation, and Maintenance
- Graduated with practical experience in electrical system design, troubleshooting, and technical drawing interpretation

WORK EXPERIENCE

MEP & Electrical Installation Supervisor

2022 – Present

Responsibilities

- Lead and supervise a team of 4–5 technicians on construction and renovation projects.
- Plan daily work schedules and assign tasks to team members.
- Coordinate site activities with supervisors and other trades.
- Install and maintain electrical systems, including lighting, power, conduit, cable trays, and distribution boards.
- Install plumbing, water supply, drainage, and mechanical systems.
- Perform electrical and MEP testing, troubleshooting, and maintenance.
- Read and interpret engineering drawings and construction plans.
- Support interior fit-out and renovation works for commercial and residential projects.
- Ensure all work complies with project specifications and safety regulations.
- Report daily progress, site issues, and completed work to supervisors.

SELECTED PROJECT EXPERIENCE

Worked on electrical and MEP installation for projects including:

- Residential Villas
- Borey Housing Developments
- Coffee Shops
- Office Buildings
- Condominium Units
- Commercial Buildings
- Interior Renovation Projects

TECHNICAL SKILLS

- Electrical Installation & Maintenance
- MEP Systems Installation
- Electrical Troubleshooting
- Engineering Drawing Interpretation
