PROFESSIONAL SUMMARY

Frontend Developer based in Phnom Penh, Cambodia, passionate about building responsive, accessible, and user-friendly web applications. Skilled in HTML, CSS, JavaScript, React, Tailwind CSS, and modern frontend development. Strong problem-solving and communication skills developed through real-world work experience and personal projects. Currently expanding my skills while building production-ready portfolio projects.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frontend: React.js, Tailwind CSS, Bootstrap

Tools: Git, GitHub, Figma

Other: Responsive/mobile-first design, basic Supabase integration, problem-solving, client communication

FEATURED PROJECTS

MEP Professional Portfolio — *React, TypeScript, Tailwind CSS, Vite*

- Built a full portfolio website end-to-end for an Electrical Installation & MEP Technician, including project showcase, experience timeline, and skills sections.

Cambodian Textiles Worldwide — *HTML, CSS, JavaScript, Supabase*

- Developed a responsive business website with product showcase, quotation request form, and Supabase-backed data storage.

School Management System — *HTML, CSS, JavaScript, Supabase*

- Built a role-based school management system with attendance tracking, student records, and secure authentication.
